

Extract from a letter from the European Golf Association (EGA) of 8/10/02

"...The European Golf Association is hereby glad to recognise the separateness of Pitch and Putt as a sport..."

"...the European Golf Association is supportive of your initiative and is in agreement with your views that Pitch and Putt is not only a good game in itself but is an excellent introduction to the game of golf..."

The European Pitch and Putt Association has a good relationship with golf but we have and want to maintain a separate and independent organization.
